# Polycab India Limited

We're the leading name in India for wires and cables. We're everywhere you need us, with over 4,300 stores and 2,05,000 shops across India. Beyond that, our products are used in over 80+ countries. We're more than just wires. We have 27 manufacturing facilities across India, making the power that fuels your daily routine. We've got over 14 offices and 34 warehouses and depots to keep things running smoothly, so you get what you need, fast. We value substance, not just style. As a company with great business practices, you're our number one priority. Happy customers make us happy. Our 4,400+ amazing employees work hard to bring you the best quality and safest products that power your home. We like to give back to communities and protect the environment while we're at it.

## No.1

Manufacturer of Wires & Cables in India

## 27

State-Of-The-Art Manufacturing Facilities

## Manufacturing Capacity

- 6 Million KM of Cables
- 24 Million Switchgears
- 9 Million Fans
- 10 Million Switches

550+ Service Centres Across India

World-class Design and Development Centre

Export Presence in 80+ Countries

NABL ISO 17025 Certified R&D Centre

# SETTING GLOBAL MANUFACTURING BENCHMARKS

Since 1964, Polycab has been at the forefront of innovation, evolving from India's largest wires and cables manufacturer to a leading end-to-end electrical solutions brand.

Our extensive range of fans, including ceiling, table, pedestal, wall, exhaust and farrata fans, are produced in state-of-the-art factories in Roorkee and Halol. Designed to exceed global standards, every Polycab fan delivers exceptional quality and performance.

### **In-House Automated Air Delivery Testing Lab**

- Rigorous testing for air delivery and distribution.
- Ensures superior air delivery upto 265 CMM for every Polycab fan.

### **Perfect Dimensions and Angles**

- High-quality aluminium for fan blades, top and bottom covers.
- CNC machines ensure precise dimensions.
- Optimal blade angles for higher air velocity and even distribution.

### **Automatic Robotic Paint Shop (Imported from ITW GEMA, Switzerland)**

- Precise and uniform coating of fan parts.
- Wide colour choices with high-grade laminated cover for surface protection.

### **Backward Integration**

- Complete control over electronics manufacturing.
- Reduces dependency on external vendors for PCB circuitries.

### **In-House BLDC Fan Manufacturing**

- Specialised plant at Roorkee for superior quality and durability.

# POLYCAB

## SUPER **ROI** FANS

Super ROI Fans deliver exceptional value by combining energy efficiency, high performance, and stylish design. Powered by BLDC technology, they offer up to 50% energy savings\* without compromising airflow. With sleek, modern designs and multiple colour options, these fans reduce costs, enhance comfort and elevate your space.

### Return on Technology

- Up to 50% energy and electricity bill savings.

### Return on Product

- Up to 3 years of warranty for peace of mind.
- More than 30 colours to match your preference.
- Modern designs to complement any décor.

### Return on Performance

- 25% higher air delivery for instant relief.
- 25-speed settings to suit your precise requirements.
- Reverse rotation for enhanced comfort during winters.
- Breeze mode that replicates a natural airflow experience.

Scan the QR code for an immersive journey into the world of Super ROI Fans.

\*2 Years Warranty + 1 Year Warranty through scanning.

Powered by BLDC Technology

# CHOOSING THE RIGHT FAN FOR YOUR SPACE

The right fan ensures better airflow and everyday comfort. Let's simplify the selection process by matching the fan sweep size to your room:

## Small Rooms (up to 50 sq. ft.)

- 600 mm (24 in.) sweep

## Medium Rooms (70-80 sq. ft.)

- 900 mm (36 in.) sweep

## Large Rooms (100-120 sq. ft.)

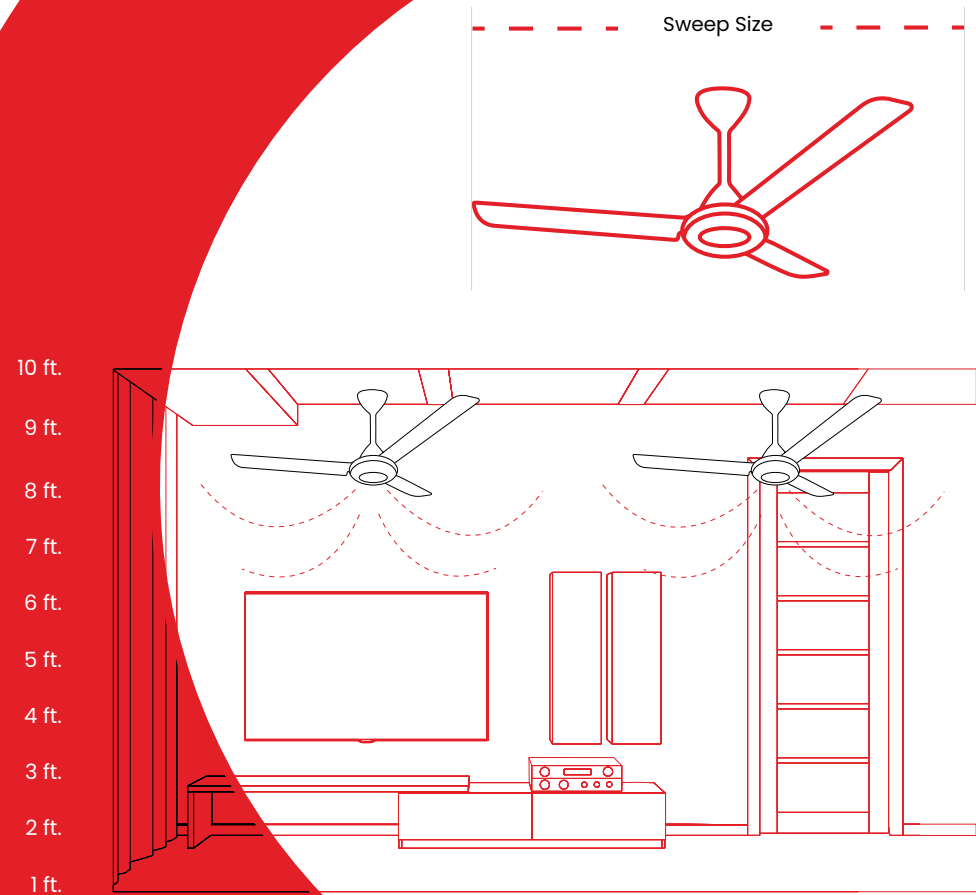

- 1200 mm (48 in.) sweep

## Beyond Large Rooms (120-156 sq. ft.)

- 1400 mm (56 in.) sweep

For efficient air circulation, ensure proper fan height: keep the fan at least 7 feet above the floor for ceilings over 9 feet, add 6 inches to the downrod per extra foot of height.

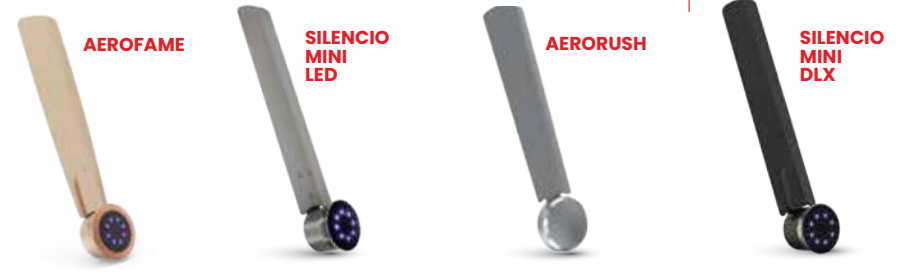

Polycab fans are engineered to deliver maximum airflow, ensuring every corner of your space stays refreshingly breezy.

Sweep size refers to the entire diameter of a fan.

# BLDC MOTOR TECHNOLOGY

Our **BLDC (Brushless DC)** motors are energy-efficient, consume up to 50% less electricity compared to conventional fans and offer a quieter, more reliable performance. BLDC fans are ideal for modern homes and offices where energy efficiency and low noise are top priorities.

## Key Benefits of Polycab BLDC Fans:

### High-Torque BLDC Motor:

Enhanced durability and performance.

### Energy Savings:

Save up to 50% on electricity compared to regular ceiling fans.

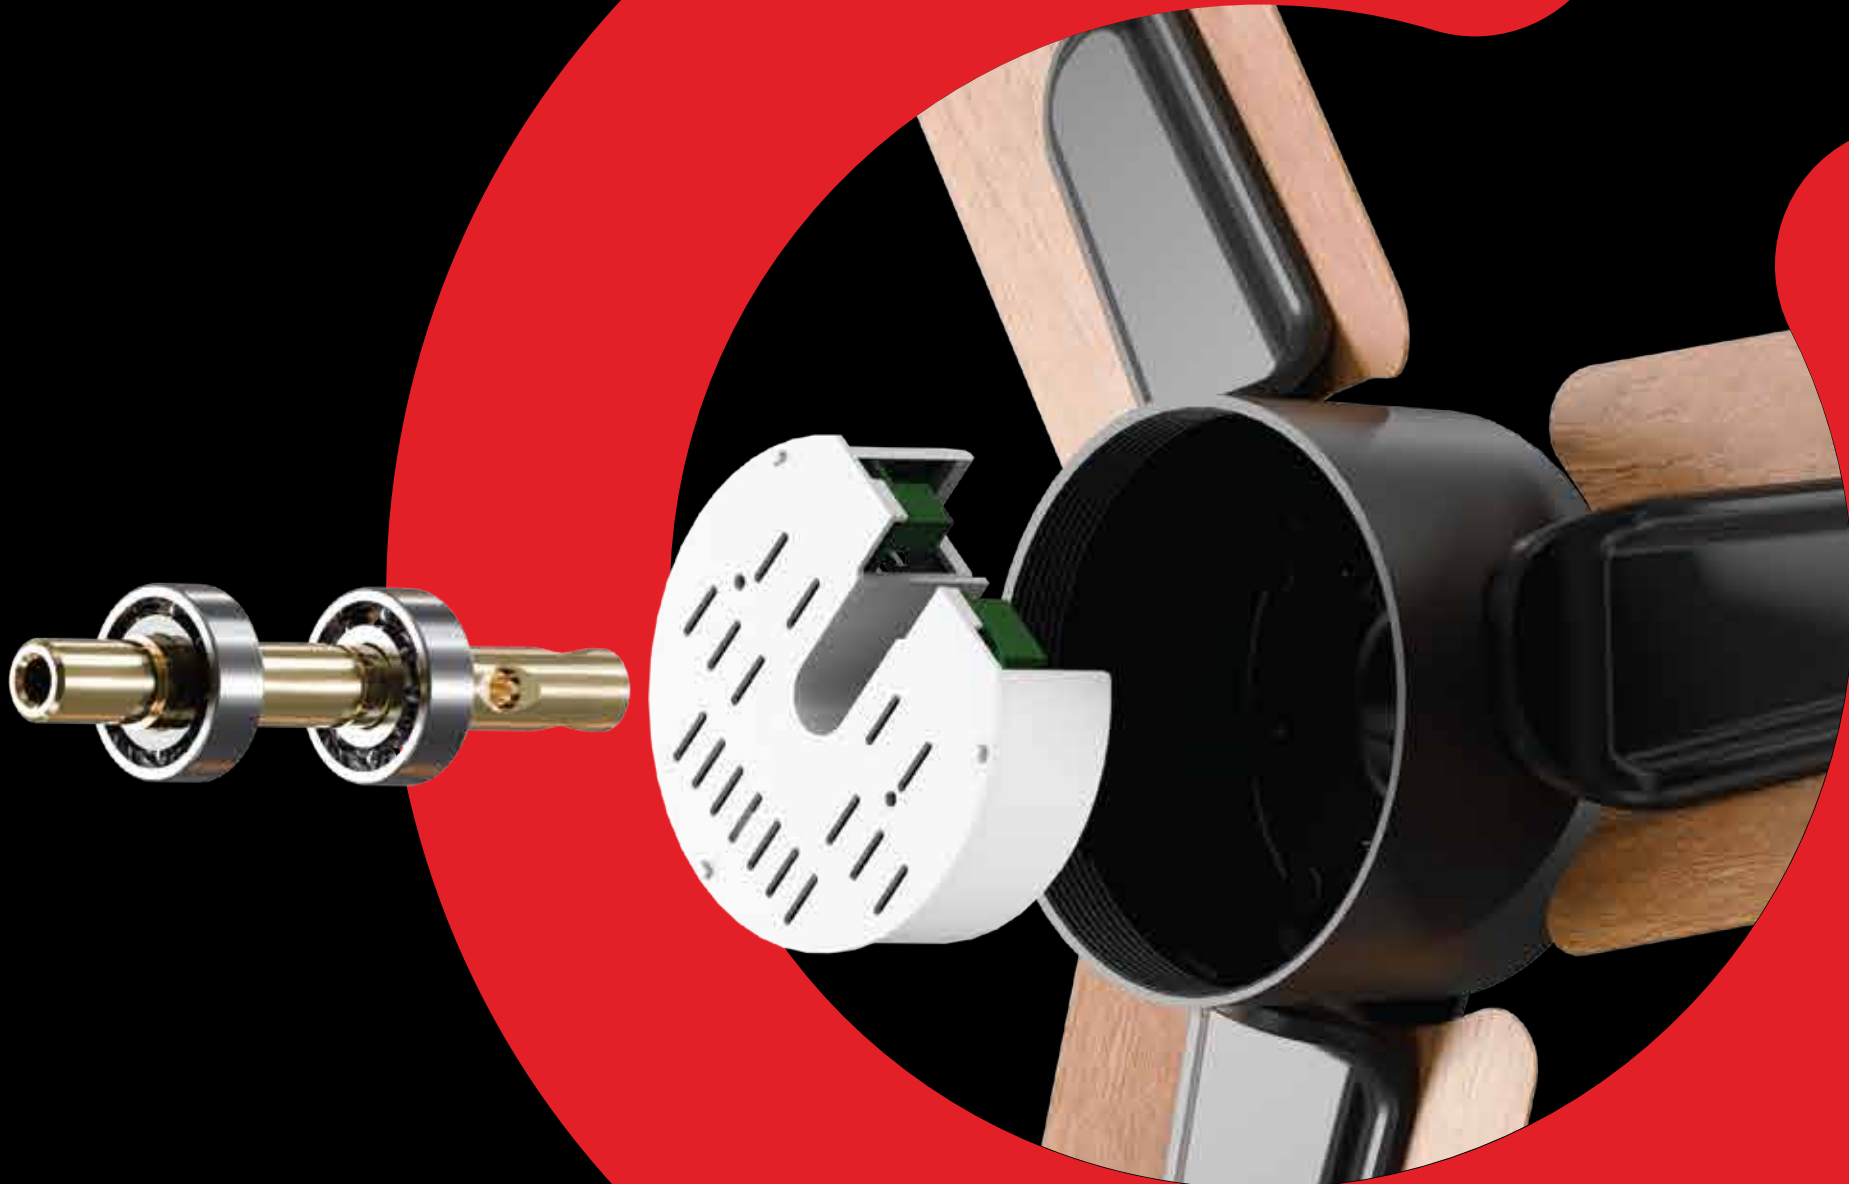

### Silent Operation:

Thanks to aerodynamic blades and advanced motor design, our fans run quietly even at high speeds.

## Why Choose Polycab's BLDC Fans?

BLDC (Brushless DC) technology has revolutionized the fan industry. At Polycab, we've taken this technology to the next level with our **Eco-Drive BLDC motors**, offering superior performance, longevity and energy savings.

# BLDC

---

## SERIES

POLYCAB

# BLDC SERIES

Our BLDC Fan collection is built to save energy, operate in near silence and enhance your décor. These fans are the perfect blend of form and function. Experience a breezy upgrade that's as efficient as it is stylish.

## MULTI-FAN PAIRING

Control multiple fans simultaneously.

## LED DISPLAY

Switch the LED indicator display on or off.

## 25 SPEED SETTINGS

Increase or decrease speed across 25 level, for precise airflow control.

## FORWARD ROTATION

Delivers powerful downward airflow for superior comfort.

## BREEZE MODE

Mimics a natural breeze by alternating between low and high speeds.

## BOOST MODE

High-speed operation for immediate airflow.

## BOOST ++ MODE

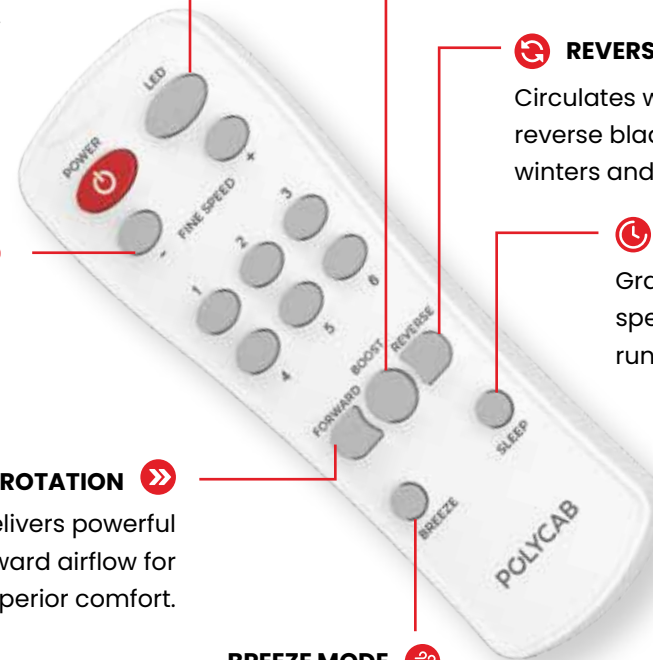

Pushes the fan beyond its top speed setting for the highest air delivery.

## REVERSE ROTATION

Circulates warm air through reverse blade rotation, ideal for winters and AC rooms.

## SLEEP MODE

Gradually reduces fan speed every hour until it runs at its lowest setting.

\*Remote colour may vary.
