POLYCAB

Polycab Showcased Advanced Cable Solutions at RE+ 2026, Strengthening Its Global Energy Infrastructure Ambitions

Las Vegas, November 20, 2026: Polycab USA LLC, a subsidiary of Polycab India Limited, India's No. 1 wires and cables company and a global industry leader, showcased its portfolio of specialised cable solutions at RE+ 2026, North America's largest clean energy exhibition, held from November 17–19 at the Las Vegas Convention Center, USA.

The participation underscored Polycab's international ambitions and its focus on strengthening relationships with global customers, utilities, EPC contractors and infrastructure developers. With a presence across 94 countries, the company is expanding its international footprint through its manufacturing capabilities, technical expertise and diversified product portfolio.

Polycab recorded consolidated revenue of US$3.3 billion in FY26, registering year-on-year growth of 23%. Its export business recorded growth of 12% in USD terms over the previous year. The company's focus on international markets is supported by its manufacturing capabilities, product engineering expertise and ability to address evolving customer requirements across diverse applications.

At RE+ 2026, Polycab showcased solutions for the global energy ecosystem. The portfolio included solutions designed to meet relevant UL and ANSI standards, catering to applications across renewable energy, infrastructure, data centres, oil and gas, power transmission and distribution, and electric mobility.

RE+ brought together stakeholders from across the modern energy industry, with programming and business opportunities spanning solar, energy storage, hydrogen, microgrids, EV charging infrastructure and wind energy.

Commenting on the participation, **Mr. Anurag Agarwal, CEO – Global Exports & New Businesses (EHV & Conductors), Polycab India Ltd.,** said:

"The US market presents opportunities across several sectors, including infrastructure, data centres, oil and gas, and renewable energy, driven by growing investments in energy and critical infrastructure. Polycab is focused on strengthening its presence in these segments by offering specialised cable solutions that meet relevant international standards and address evolving customer requirements. RE+ provided an important platform to showcase our capabilities, engage with industry stakeholders and build long-term partnerships."
