## With Polycab SYNC:

### SIMPLIFIED SOURCING

One-window access to wires, switches, switchgears, lighting, and conduits makes procurement easier and faster

### FASTER EXECUTION

Pre-aligned, spec-matched components eliminate mismatches and on-site rework delays

### RISK MINIMISATION

Certified products with built-in safety assurance reduce risks during construction and post-handover

# One Connected System. Maximum Safety.

A disconnected system means delays and hidden costs. Polycab SYNC connects it all for one seamless, efficient system.

## ***Multiple sourcing***

creates delays, risks & higher costs.

**30%**

project delays due to electrical rework from poor integration

**20%**

delays caused by fragmented sourcing across multiple products

**10%**

additional cost from procurement through multiple vendors

**10%**

added cost from on-site theft of wires, switches & materials

**10%**

extra cost from limited after-sales service post-handover
