The background image shows a perspective view of a modern industrial factory. On the left, there's a long wall of windows. The floor is blue with yellow safety lines. In the center, a worker in a light blue uniform is pushing a cart. In the background, other workers are visible at their stations. The ceiling is high with numerous rectangular fluorescent light fixtures.

# WHY POLYCAB LIGHTING ?

INNOVATING QUALITY,  
DELIVERING EXCELLENCE!

• **PRODUCT QUALITY:**

- a. In-house product testing via two fully equipped NABL approved electronics R&D laboratories
- b. Highly experienced R&D personnel with expertise in lighting electronics for local, US/European and military grade specifications
- c. Kaizen & TQM methodologies implemented for production processes enhancement

• **INNOVATION FOCUS:**

- a. Robust R&D initiatives to drive product innovation
- b. Development of electronically advanced LED Lights with high end technology
- c. Emphasis on designing decorative LED Lights with superior aesthetic appeal

• **MANUFACTURING & AVAILABILITY:**

- a. Investment in in-house manufacturing with respect to capacity, automation, and backward integration of manufacturing processes like plastic moulding, pressure die-casting & automatic powder coating
- b. Fully automatic, multiple state-of-art SMT manufacturing lines with automatic optical inspection and luminaire assembly lines
- c. In-house luminaire design capability with latest testing equipment like photo goniometer and many more

• **CUSTOMER SERVICE:**

- a. Unwavering commitment to delivering superior customer service through our large footprint of 450+ service centres and quick resolution
